

ZEORIT NPK 8-10-10+9S

Multicomponent granulated NPK fertilizer
with sulphur, calcium and natural zeolite content.

ZEOLITE BENEFITS:

- It helps ammoniacal nitrogen fixing
- It releases gradually nutrients from the fertilizer throughout vegetation period
- It improves water management in the period of humidity deficit

MAINLY RECOMMENDED:

- For general preliminary fertilization of field crops
- For spring fertilization of grasslands and vegetables
- In gardens for basic soil treatment before planting all kinds of vegetables, berry plants, small fruits and fruit trees

ZEORIT NPK 8-10-10+9S is supplied
in large-capacity bags (big bag) or in bulk.
